#### Seasonal fruit salad

Ask your server for the available fruits

## ENERGY TO BURN?

Check out our top five things to do while you are here...

1. **Wonderlab: The Statoil Gallery** – Order live experiments at our Chemistry Bar, travel through the Solar System underneath a canopy of stars and watch clouds condense in front of your eyes in our wonderful new interactive gallery.

2. **The Garden** – Open your eyes to the wonders of science in this exciting multisensory space.

3. **IMAX Theatre** – Have you ever seen a screen the size of four double decker buses? Come and watch one of our 3D films in the IMAX Theatre, where you can see what it's like to live on the International Space Station, or explore the mysteries of the ocean floor.

4. **Fly Zone** – Ever wanted to fly your own jet? Head to Fly Zone on level 3 to take the controls yourself.

5. **Robots** – Discover the 500-year story of robots and how we've tried to make them look and act just like us. Open until 2 September 2017.

# SO MUCH TO DISCOVER

Only 12 people have ever walked on the Moon.

Your body is made up of 65% oxygen.

Space is three times colder than the coldest place on Earth, Antarctica.

The first hot-air balloon was made in 1783 and flew over Paris.

On 20 July 1969 (that's nearly 50 years ago!) Neil Armstrong was the first person to set foot on the Moon.

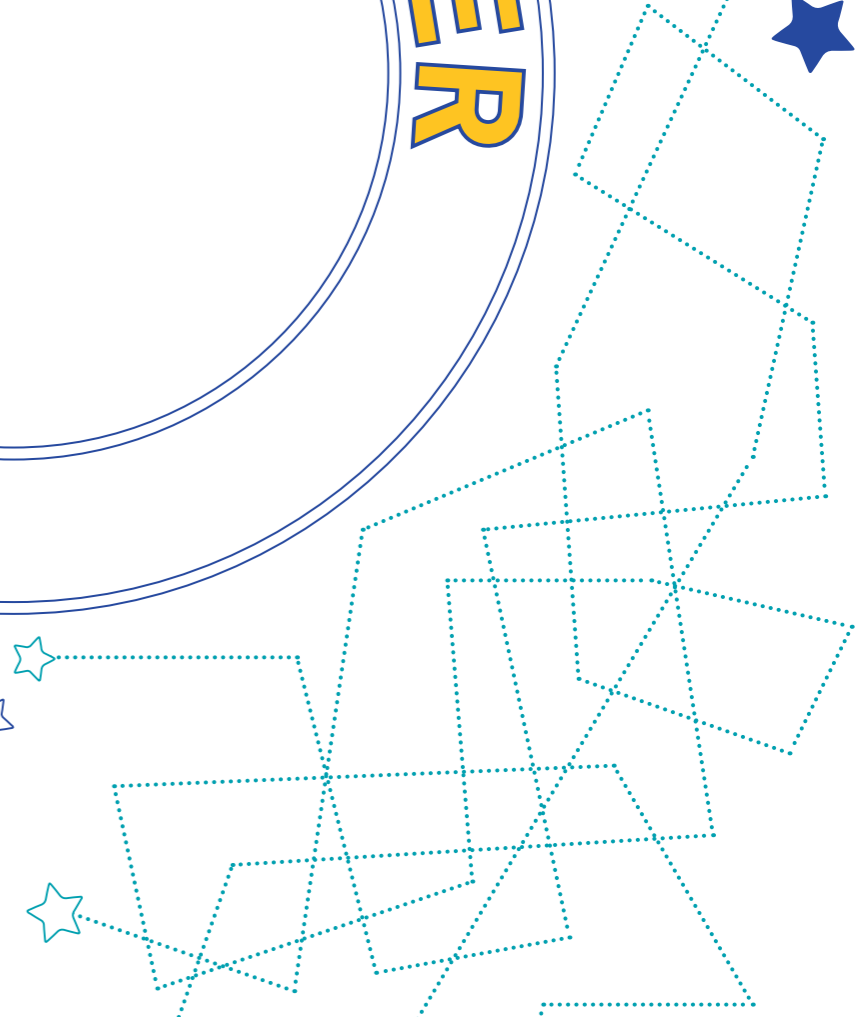

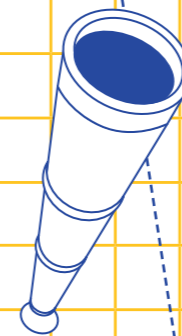

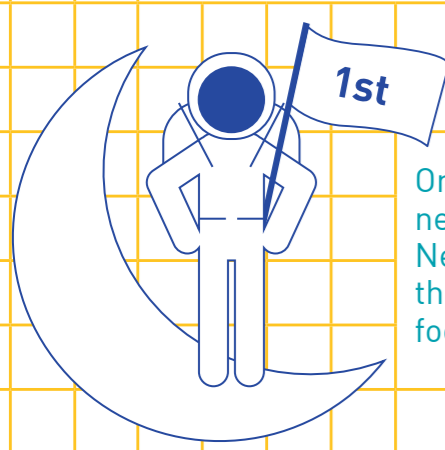

Lightning is five times hotter than the Sun and is a form of static electricity.

In 1930 Amy Johnson became the first woman to fly solo from Britain to Australia.

# BRAIN POWER

Design a meal to boost your

Well done!
